

LOS ANGELES COUNTY EQUITY MAP: Homeless Population

2019 LAHSA Homeless Count

(Total number of unsheltered and sheltered individuals by Census Tract)*

*Sheltered and unsheltered individuals, as per the LAHSA homeless count, refer to individuals being sheltered or unsheltered outside of a building, so "sheltered" refers to tents, lean-tos, cars, but not a permanent structure like Permanent Supportive Housing.

The cities of Burbank, Pasadena, & Long Beach do not participate in the LAHSA homeless count and are therefore blank.

The breaks are according to a Geometrical Interval, which creates class intervals based on a geometric series. Breaks are rounded to the nearest integer for clarity.
